About the CCS

The [Center for Cultural Sustainability](#) (CCS) explores the continuity of the cultural systems of human existence and the common identities of heritage that bind people to places. The Center provides academic research and services to benefit communities, completes large-scale research projects, provides research and educational opportunities for graduate students, and convenes leaders in the field for dialogue on global practices concerning sustainable development and construction.

The CCS is a research center of the [University of Texas at San Antonio](#) (UTSA) and is housed within the [College of Architecture, Construction and Planning](#).
